## Notable Features

- Fast, repeatable measurements.
- Cast aluminum design, light-weight, easy "one-hand" operation.
- Spring-loaded contact, no operator influence on measurement.
- Lower contact sits on a tripod for easy adjustment and alignment.
- Rugged for shop-use.
- Large selection of indicators and frames.

## Custom and Special Models

We will modify the arms and contacts to meet your special applications.

Send your present gage to Dyer's repair center and we will upgrade it to electronic indication.

## Standard contact point options

All lower contacts are set on a 3-screw tripod in a fixed position. They adjust easily to keep the lower contact in the fixed position.

Lower contact positioned on
three adjustment screws.
Easy-to-square contacts.

309-010 gage with dial indicator

309-210 with digital indicator

Includes Mechanical Dial Indicator, Contacts and Lifting Lever.
Models 12.00 "and 16.00 " have mounting base for tabletop.
