

M1116 SHOP FOX® Variable-Speed Mill/Drill with DRO

This great little machine sports some of the same features found on much larger mill/drills: dovetail column, variable-speed 1 HP motor, R8 spindle with digital read out, tapered gibs with double locks, and large 7 $\frac{1}{16}$ " x 26 $\frac{5}{8}$ " table. This is an excellent value and great for those just starting out or even as a dedicated, single-purpose machine in a professional shop! Purchase the optional D4780 Stand for the ultimate mill/drill package.

**Wide Speed
Range!**

50-2250 RPM

**Dovetail
Column**
