## Mitutoyo

## Toolmakers' Microscopes <br> TM Series

## Bright and Clear Field of View. Best Performance in Small-model Class.

## FEATURES

Newly designed LED illuminators provide enhanced observation for higher accuracy and resolution.

Conventional illumination

Newly designed LED illumination

Optional Accessories
Eyepieces and Objectives see page 4

DIMENSIONS (including digital micrometer heads)

System configuration (accessories are optional)

Notes: 1) One or two micrometer heads are required for linear dimension measurement.
2) If a measuring range longer than the micrometer head travel range is to be used, a gauge block accessory is required.
3) Some order numbers differ depending on the connector form.

## Trademarks and Registrations

Designations used by companies to distinguish their products are often claimed as trademarks. In all instances where Mitutoyo America Corporation is aware of a claim, the product names appear in initial capital or all capital letters. The appropriate companies should be contacted for more complete trademark and registration information.

Whatever your challenges are,
Mitutoyo supports you from start to finish.
Mitutoyo is not only a manufacturer of top-quality measuring products but one that also offers qualified support for the lifetime of the equipment, backed by comprehensive services that ensure your staff can make the very best use of the investment.

Apart from the basics of calibration and repair, Mitutoyo offers product and metrology training, as well as IT support for the sophisticated software used in modern measuring technology. We can also design, build, test and deliver measuring solutions and even, if deemed cost-effective, take your critical measurement challenges in-house on a sub-contract basis.
