

POWER FEED & MOUNTING KITS

NOTES: Kits fit the SERVO Type 350X Power Feeds.

All Table, Cross & Knee feeds use ECF-350X.

Models M-0800, M-0801, and M-9815 do not use standard ECF units and require special modifications to the top housing. See our website for most installation instructions and drawings (require Adobe Acrobat Reader).

NOTE: Servo Products Company has made every effort to provide mounting hardware kits that are as accurate and complete as possible for each machine model. However, machine builders may change their designs without letting us know. Therefore, some kits may not fit properly. Please let us know when this happens.

TYPE 350X POWER FEED

PRODUCT DESCRIPTION	PRODUCT MODEL NUMBER
TYPE 350X POWER FEED - BASE UNIT	ECF-350X

TABLE MOUNTING KITS

PRODUCT DESCRIPTION	PRODUCT MODEL NUMBER
ACER 3VS 3VK	K-9108
